1. As mentioned in social well being part, how many people will get employment in new project? Skilled or unskilled?
2. From where natural gas would be supplied? Whether transportation leakage and construction for natural gas supply has been considered in calculating GHG emission?
3. Please explain additionality criteria in detail. Gujarat Pollution Control Board must have issue Combined Consent under Water Act & Air Act for operation of plant. If the value of emission from stack in consent order is lower than baseline values CO2 emission, then project proponent is bound to reduce emission even without CDM project.
4. Is there any national or international guideline from concern authority for monitoring of CDM project? Please explain.
5. Whether local villagers would be beneficiary of CDM revenue earned by company? Any plan has been develop to earmark certain fund from CDM revenue for community welfare?
