Name: daniel rogicki	City: edmonton
Organisation: student placement	Country: canada

I have a number of comments:

1. The documents are supposed to be in English?? This is the English language?
2. I tried to estimate the economic evaluation with and without CER revenue, but it is impossible to even start.
3. I have seen other PDD documents for China and there is reference to regulations for landfill gas collection - this PDD says no regulations!
4. Many more problem areas, but is this the quality expected of this Program?
